ABOUT US

BRIGHTON INTERNATIONAL LLC is a dynamic and diversified trading company specializing in procurement and supply of recyclable Ferrous and Non-Ferrous metals and construction-related products. With a strong vendor network, BRIGHTON INTERNATIONAL LLC sources scrap materials from various suppliers and ensures their efficient redistribution to larger vendors and recycling companies. The company is actively engaged in the procurement and supply of machinery, equipment, industrial spare parts, auto parts and general trading. Committed to reliability, efficiency, and quality service, the company strives to deliver sustainable trading solutions while maintaining strong relationships across its supply chain.

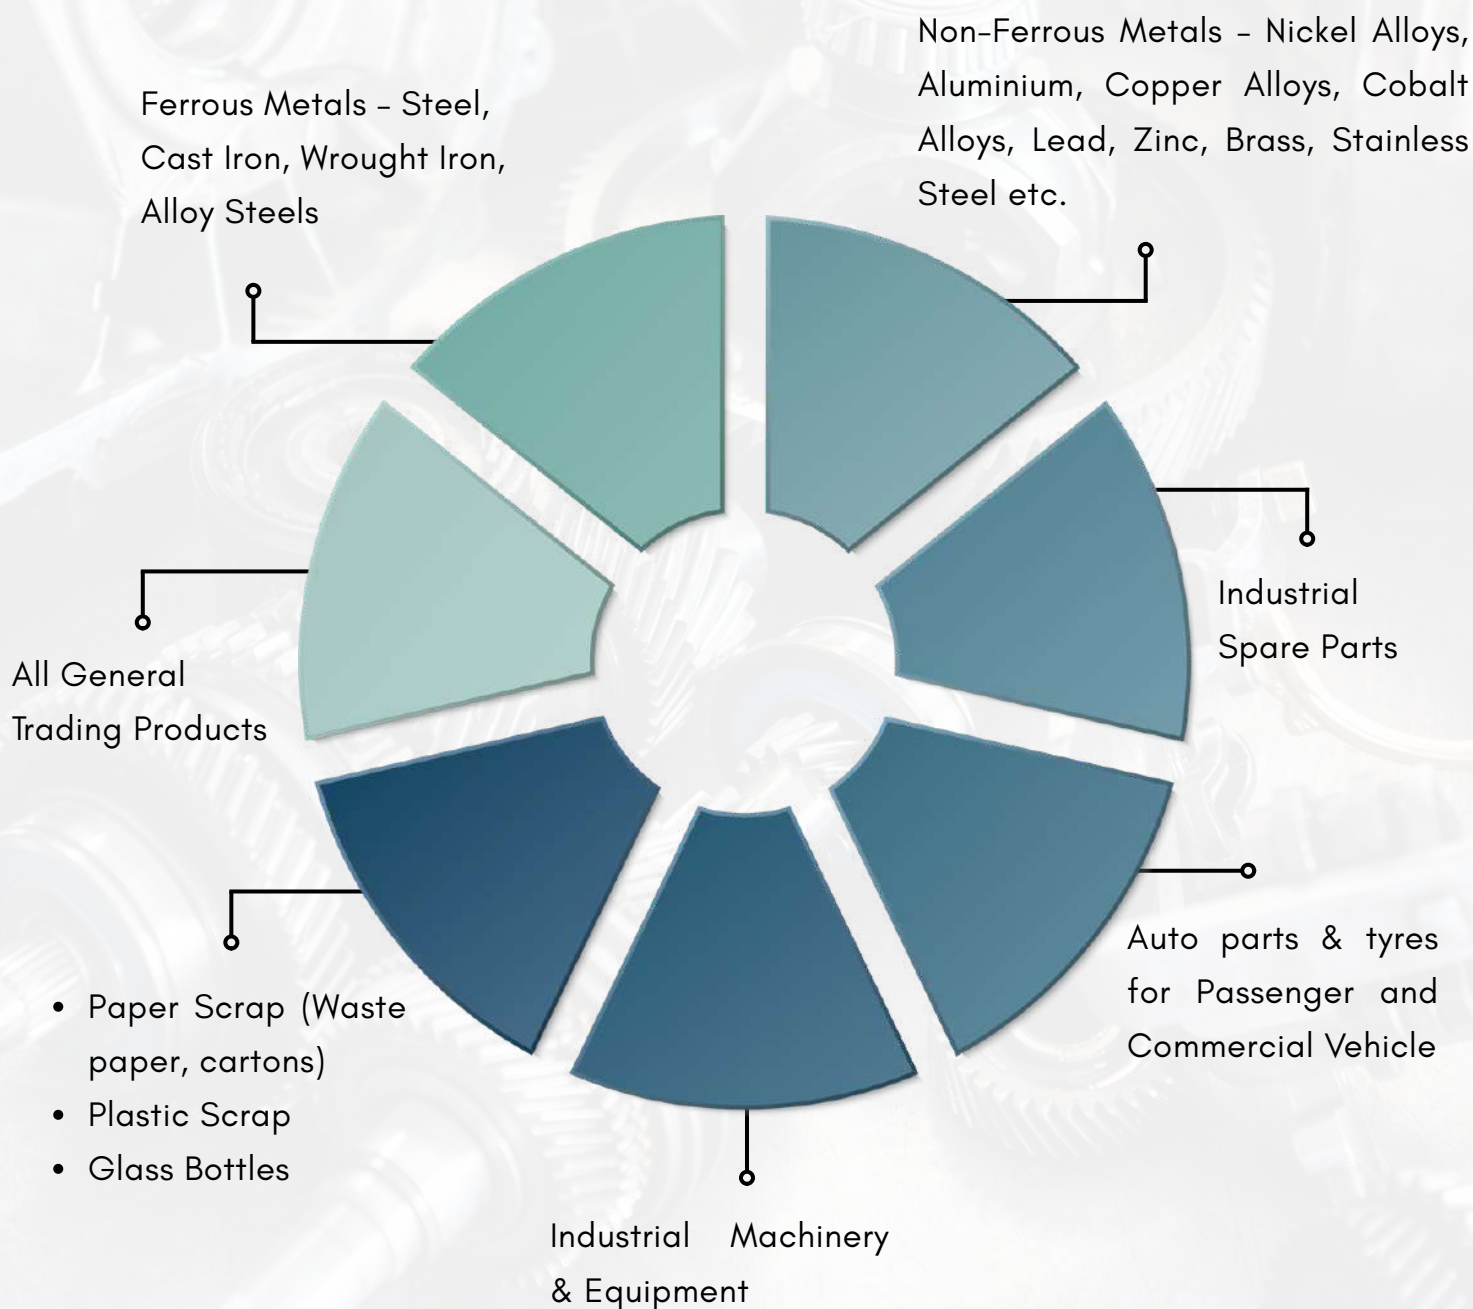

MISSION

To source high-quality products from global markets and consistently deliver solutions that meet and exceed customer expectations worldwide. We are committed to contributing to environmental sustainability by responsibly managing the procurement and recycling of scrap materials, guided by ethical business practices, operational excellence, and continuous innovation.

BUSINESS SCOPE

Our core business operations encompass the sourcing, sorting, and distribution of a wide range of Machinery, Equipment, Auto parts, Tyres and other Non-specified goods (General) and Scrap materials, including:

KEY SERVICES

Procurement of scrap materials from small vendors and industries

- Quality assessment and sorting of scrap materials
- Distribution and supply chain management to ensure timely delivery
- Facilitation of recycling processes through reliable partnerships with recycling facilities

CLIENTS

Our client base includes:

- Manufacturing Companies and retailers
- Recycling companies
- Manufacturers utilizing recycled materials
- Small vendors and collectors of scrap materials

QUALITY ASSURANCE

We adhere to stringent quality standards and ensure that all scrap materials sourced and distributed meet environmental regulations and client specifications.

TEAM

25 years of expertise in national and international construction and metal industries.

INDUSTRY PROFILE

The Metal Scrap Trading Industry plays a crucial role in the global economy by facilitating the recycling and reuse of materials that would otherwise end up in landfills. Key aspects of the industry include:

- Environmental sustainability: Metal scrap trading contributes significantly to reducing waste and conserving natural resources.
- Market dynamics: The industry is influenced by factors such as commodity prices, demand from recycling industries, and regulatory policies.
- Innovation: Companies in the scrap trading sector often process, innovate and transport scrap materials to maximize efficiency and profitability.

FUTURE

The Metal scrap trading industry is poised for growth due to increasing awareness of environmental issues and the implementation of stricter recycling regulations globally. BRIGHTON INTERNATIONAL LLC is committed to expanding its operations and leveraging emerging opportunities in the market
